

HERCULES WIMBLEDON YOUNG ATHLETES T&F ALL TIME

After hours of trawling through copies of Athletics Weekly – courtesy of the Lauriston RC library- old Team Spirits, various Amateur Athletic Association (AAA) and UK Athletics annual publications and the Surrey County AA web site, I have arrived at the following, which it is hoped will lead to definitive all-time Hercules Wimbledon AC Young Athletes (male) ranking lists.

It was originally intended to show just the top-20 of each discipline but I have now decided that as and when a performance that comes to light and is worthy of inclusion the lists may well exceed 20 names in some instances. Now the lower performances have been included it would be a pity to ‘wipe them of the map’ sometime in the future. This will mean that any future performances will only be included if they better the final performances currently shown in the lists.

After an early draft of these lists were provided, Maurice Sharp came up with about 20 foolscap pages of amendments and additions plus a host of full first names, which has been much appreciated. More recently there has also been some much appreciated input from Mark Giraud.

Thanks to help from Jon Owen the senior men’s top-20 lists look to be quite settled having been on the HW web site for some years now and updated usually on an annual basis. Feedback from these lists is pretty minimal so we can assume that they were carried out with a degree of accuracy.

It is appreciated that as the young athlete’s lists currently stand there are probably quite a few gaps, but unfortunately in those pre-computer days record keeping of HW results were, to say the least, a bit intermittent.

Second claim members are not included in all-time rankings although they are shown - if the performance was made while competing for Hercules Wimbledon AC - in the annual ranking lists.

Where possible I have included performances by the athletes of Hercules AC prior to the amalgamation with Wimbledon AC in 1967 but I am lacking in-depth results of that club. For interest sake, Hercules AC was founded in 1933 and Wimbledon AC in 1953. Perhaps someone reading this may be able to assist. Also, Athletics Weekly in those days did not supply a results service equal to that now in force. 1967 was also the year that the AAA went metric, meaning that results prior to those days may have got lost in the translation.

Of course many of the events shown have not extended to 20 names but as the years go by and with input from athletes and/or officials who may have results – probably stored in their lofts – these lists should increase to the required amount in each case.

You may note that in the sprint events some names appear twice in a particular age group. The reason for this is due to an ‘illegal’ wind assisted time being shown and, where possible, followed by the particular athletes’ ‘legal’ time.

One of the main reasons for these lists is that it may inspire the young athletes of Hercules Wimbledon to give that extra bit of effort in an endeavour to be included in these lists. It could also help to concentrate the mind when training for these events.

I did originally intend to include under-11 boys but after much thought I have decided against this. First of all results in this age group were very minimal and secondly, it was felt that there could be pressure on such a young age-group to perform, sometimes under stress, so as to be included on any such listings. These lists have been also been placed on the HW web site (www.herculeswimbledonac.org.uk) which, with a much wider readership, may attract some missing results.

If anyone feels that their performances are missing, please note that this was not done on purpose. Just let me know details of the performance and a correction can be made.

Pete Mulholland
